Con. Mercur and Lower Mammoth | Well Known Sait Lake Mining Man | Gettiing Ready For Great Work in Goes to the Rambler.

J. L. Powell, Also a Utahn, Has Heen Engaged as Superintendent-Mine Rich in Copper.

Special Correspondence. Battle Lake, Wyo., July 6.-The Doane-Rambier, the oldest and richest copper mine in Wyoming, is now under new management and will become a and continued so to the end. Daly-Judge regular shipper. The consulting engineer, R. G. Legg, of Sa't Lake City, has opened with a sale at 80 cents and arrived and will take personal charge of the property, being essisted by J. L. Powell, also of Salt Lake, as superin-

> The Doane-Rambler has produced the richest copper ore in the world in carad lots, and there is an abundance of the same kind of ore still in the mine that only awaits shipment. The mine will employ about 50 men from now on.

MINING CONCENTRATES.

Forty carpenters are employed at the new Keith-Kearns mill at Park City. A force of 10 men has been put to work at the Bogan property at Park

Manager Frank B. Cook, of the Col umbia Copper Company, departed for Bingham this morning. The ore and bullion settlements re-

ported late yesterday were: Crude ores and concentrates, \$21,600; base bul-lion, \$57,560. Total, \$79,160. Charles A. Molson, resident agent of

the London Exploration company has returned to the city after an absence of several weeks. Congressman Howell and several Logan purties are making an inspection of the Sundown & LaPlata and Blue Bell properties in the La Platta mining district.

Silas W. Eccles, general traffic manager of the America Smelling & Refining company, after a stay of several days in the city has taken his departure for the east.

The first consignment of ore from the Butler-Liberal Consolidated, since the consolidation of the Ben Butler and Chicago-Bingham properties, reached the valley smelters today.

The Ingersoll Mining company, operating at Park City is preparing to commence a vigorous campaign at its property. The property consists of three claims adjoining the Liberty

J. T. Fulton, of the Skelton-Fulton company, who had his ankle broken while playing baseball a week ago last Sunday, is improving rapidly, but he will not regain the use of his injured leg for some weeks.-Tonopah Miner.

The Majestic Mining company is a Park City. The company is a new corporation formed to operate at Park City. The company has a group of 12 claims, located in the eastern part of the comp, situated to the southwest of the Liberty group. The incorporators are: C. S. Rolph, Jenks and John Nelson, Frank Aubrey, Ed Ryan, Mont Farguson, Lin M. Donnie and L. Mont Ferguson, Jim McDonald and Jos

The Tonopah Miner has begun the third year of its existence. It is unquestionably one of the most enterprising journals in the west today, and if Nevada had a few more of the same kind, people abroad would know more about the resources and possibilities of a truly wonderful state; one of the greatest where mining is among the chief industries. The Miner has ac-complished great things in advertis-ing and helping to build up Tonopah. With Sam. C. Durham and James Mor-ris directing its policy in the forces ris directing its policy in the future, as they have in the past, the Miner is sure to continue with its good work.

Says a Boston Exchange: Amaigamated Copper officers have been reelected, and it is still President H. H.
Rogers and Secretary and Treasurer
William C. Rockefeller. It pleases
whom it concerns in the street to intimate that insiders have been buying
Amalgamated stock, and will increase
the dividend. Nice men, the insiders
who tends on purpose of their own nor Says a Boston Exchange: Amalgawho trade on purpose of their own nor communicated to fellow-stockholders! is alleged that the Anaconda sme as been closed to avert a strike of seltermen for an increase in wages om \$2 to \$3 per day, expected on July it is stated, most likely without auhority, that the smeltermen are to be eated to the starving out process.

Harry S. Joseph made an inspection Harry S, Joseph made an inspection of the United Bingham properly at Blingham yesterday and found condi-tions quite satisfactory. Ore is being extracted, he says, for shipment to the

Wallace W. Wait, secretary and treasurer of the Blue Acre Copper company, has arrived from Kansas

Manager Laurence Harris, of the Sunshine mine at Sunshine, departed for camp again this morning.

William Lockridge, well known in Milford mining circles, arrived from the south this forenoon. Manager J. W. Taylor, of the Ima Consolidated, departed for Idaho last night to look over conditions at that property. He was accompanied by Prof. J. E. Talmage.

The directors of the Lower Mammoth Mining company are scheduled to hol

their regular monthly meeting tomor-row afternoon. The demand made recently by manager David Evans of the Black Jack mine, for an accounting for ores alleged to have been extracted from the latter's property will come up for consideration. property will come up for consideration, Harry Cole, the well known broker, has received samples of what appears o be a very good quality of lithograph-ng stone. He is going to investigate

ne proportions. Col. P. C. Weber, of Ely, Nevada, is in the city to attend the meeting of the chareholders of the Sapho Mining comnany, which is scheduled for this after.

NEWHOUSE MEN ARE VERY BUSY

Beaver County.

PIPE LINE AND RAILWAY

Two Things of Importance to be Considered First - Water and Transportation Are Essential.

The forces at the offices at the Newhouse Mines & Smelters company are kept very busy these days arranging the preliminaries for the building of the big concentrator and smelter at the new town of Newhouse, in Beaver county. Draughtsmen are preparing a sketch of the proposed pipe line from Wah Wah springs and it is only a matter of a few days until those in charge will have decided upon the size and quality of pipe to be used to convey the water from the springs to the site of the new town and works.

Now that the Salt Lake Route is it possession of the line of railroad formerly owned by the Oregon Short Line, south of Salt Lake, the probabilities are that arrangements will be made forthwith for the extension of the road from Frisco, a distance of about nine miles. The building of the railroad and the pipe line are among the important things to be considered first and are really necessary. Water and transportation are essential before much of anything else can be done. thing else can be done.

LINCOLN MINE SOLD. Illinois Parties Purchase Utah's First Metal Mine.

Special Correspondence. Beaver, July 7.—The famed Lincoln mine, near Minersville, was sold yes-terday under the hammer by Sheriff E. O. Puffer, for \$58,747, to Frank Frour, of Lincoln, Logan county, Illinois.

The Lincoln, otherwise known as the Rollins mine, was the first metal mine discovered in Utah. Its first owners realized very handsomely out of the proposition, but in late years the mine has been unfortunate in falling into the hands of inexperienced, therefore, in-competent hands. The Illinois parties who undertook to develop the property a few years ago spent money lavishly but accomplished nothing. In the at-tempt to unwater the shaft, those who had the directing of affairs, did succeed in "drowning" several expensive pumps. That the mine has merit, is generally believed. When the water problem is overcome the Lincoln will undoubtedly be able to again enroll it-self among the producing mines of the

COMMENCE TOMORROW.

Grading for the Copper Belt Railway Extension in Bingham.

The Utah Construction company, which has been awarded the contract to build the proposed extension to the Bingham Copper Belt railway, will be-gin throwing dirt tomorrow. The first scene of operations will be at a point in Bingham canyon near the Old Tiewankee property; the track to be ex-tended from that station to the Yampa smelter, three-quarters of a mile below the canyon is to be spanned by a high trestle over the Rio Grande tracks. Later, work will begin on the upper di-vision where the canyon will be span-ned by another treatle 200 feet in length. From this crossing the grade will extend over the hill to Carr Fork and on to the Yampa, Boston Con. and Highland Boy mines.

A conection will be made with the McIntosh tunnel for the convenience of the Utah Copper company, which recently took over the Delamar-Wall

SENATOR CLARK'S REFINENRY. Butte Plant Will be Ready for Commission in Two Months.

In about two months, says a Butte exchange, it is expected the refinery being built by Senator Clark at his Butte Reduction works will be completed and ready to treat product from the senator's mines. The plant is being erected just north of the works. Two blister furnaces are being installed at first, and if these give satisfaction more will be added. The copper matte from the smelter carried about 60 per cent conner but the bilster furnaces will raise it to 95 per cent.

senaro Cark is also increasing the size of the concentrator at the Butte Reduction works largely for the purpose of treating tailings rather than with an idea of increasing the output of the concentrator.

UTAH CON. DIVIDEND.

Dates for Distribution of \$450,000 Have Been Announced.

The dates set for payment of the Utah Consolidatoed dividend has been an-nounced. The holders of record of the rust receipts issued by the Internatio al Trust company, will receive their proportion on July 10. Holders of the tock of the English company will draw down the amounts coming to them on and after July 23, 1993, upon surrender of Internatoinal Trust company re-ceipts properly endorsed in blank or of stock certificates of the English company in exchange for certificates of stock of the new American company, the Utah Consolidated Mining company of New Jersey. Transfer boks of the old company close July 10, 1903, and cooks of the new company open July The amount of the distribution is 1.50 per share or \$450,000. The total paid

during the year is \$954,000. TWO MINERS MEET DEATH

One Struck by a Rock, the Other Burned by an Explosion.

Special Correspondence. Kemmerer, Wyo., July 6-Two miners met death in mine No. 2 at Oakley, near here, Saturday, The first, S. Oki, a Jap, cas struck on the head by a fall of rock. His skull was crushed in and he died intantly. A Slav was burned by a premaire explosion. He was taken to the Vyoming general hospital at Rock prings, but died shortly after reaching Marshal Brown, who was convicted at Sheridan of robbery and wife beating, has been sentenced to one year in the state penitentiary,

St. Paul, Mo. Pacific and U. S. Result of a Head-on Collision on

THIRTEEN WERE INJURED.

Engineer Had Orders to Get Out o Uay of Fast Train, but Overstayed His Time.

Washington, July 7 .-- Twenty-four persons were skilled and 13 injured in a head-on collision on the Virginia Midland division of the Southern rajiway at Rockfish. Va., this after

The passenger train which left Washington at II:15 a. m. today for Atlanta, Ga., dashed into a local freight which was standing on the main line of the road at that point, wrecking both engines and the baggage and express cars of the passenger train. The baggage car and the second class

assenger coach immediately following were telescoped. The freight train was in charge of Conductor Brubeck and Engineer Hale, and at the time of the accident was on the return from Eynchburg to Char-

tiesville. Rockfish station is midway etween these two points, and the track here is a single one. Engineer Hale had orders to get out

of the way of the fast passenger train, but for some reason which has not yet been explained he had overstayed his time and had falled to take a siding so that the passenger train could pass.
The trains came together with a horrible crash, and a fearful scene of panic ensued when the occupants of the cars realized what had occurred. The passenger train was made up of an ex-press car, a baggage car, two day coaches and two Pullman cars.

It is estimated here that there were in all probability 120 passengers on the train, including those from Boston and

intermediate points.

It was at first reported that Baggageman Payne had met his death in the
wreck. Later reports, however, show
that this is incorrect. He was caught under one of the coaches and was bad. y stunned, but later he revived and oorbably will recover.
It is now said to be almost certain

that of those killed 19 were colored per-sons, as the second-class coach, which was telescoped, was occupied almost exclusively by them. The trainmen, under a doctor's direction, cut through the panels of the baggage car and express car and took out 20 of the dead. Probably a score f injured were removed. Most of the killed and wounded were

Austrians, and were bound for points as far distant as California. RAWLINS, WYO.

Wm. Jenkins a Restauranter Accidentally Shot and Dies.

Special Correspondence. Rawlings, Wyo., July 6.-A peculiar accident, which terminated fatally, oc-curred here on the 4th of July, Mr. William Jenkins, a restaurant keeper, while going hunting, and was about 20 miles from home, driving down a rather steep incline, the horses became unmanageable, and the gun being in his hands at the time was discharged, his body receiving the entire contents from which injuries hemorrhage ensued and this morning he died.

The deceased was formerly a train-man, still holding a membership in the B. R. T., and in which he held \$1,200 Mr. Jenkins was from the east, his relatives still ilving there, hence his re-mains will be shipped there for inter-
